Professional Highlights

COLDEN CORPORATION

Asbestos and Lead Management – Provided management in the asbestos, lead, and hazardous materials consulting field as an inspector, air monitor, project monitor and project designer. Served as project manager for a 2-year \$220,000 hazardous waste and asbestos remediation project in a SUNY residence hall. Recently managed an 86,000 square foot remediation project for hazardous waste and asbestos for a Fortune 500 client.

Abatement – Developed and written asbestos abatement designs and provided project monitoring services for many types of facilities including commercial, educational, manufacturing, institutional, utility, legal, healthcare, and others.

Surveying – Performed over 500 asbestos surveys at client facilities. The surveys include but are not limited to pre-demolition, pre-renovation and AHERA. Recent surveys have included large glass manufacturing, retail space, educational, pharmaceuticals and major utility buildings.

Industrial Hygiene – Provided comprehensive industrial hygiene services including sampling design and implementation in industrial and non-industrial settings. Served as the project manager for the remediation and Community Air Monitoring Program during the renovation of a large upstate mall.

ENVIRONMENTAL COMPLIANCE MANAGEMENT CORPORATION

Health and Safety Trainer – As a New York State Department of Health approved instructor provided asbestos initial and refresher training to supervisors, handlers, project designers, inspectors, project monitors, air sampling technicians, operation and maintenance, and allied trades to thousands of students at one of the largest Upstate New York training organizations.

Education

- The State University of New York, College at Brockport
Bachelor of Science, Political Science (1995)
