

PROJECT CONSULTANTS

Join us in welcoming **Jeremy Teed, Taryn Dausman, and Mary Chuc** to the Colden team!

JEREMY TEED
Project Consultant

Jeremy Teed provides a variety of environmental, health, and safety services from Colden's New England office, with experience in exposure assessment, industrial hygiene air sampling, and health and safety compliance.

Mr. Teed is an avid hiker whose notable trips include the Annapurna region of Nepal, High Tatras of Slovakia, and a thru-hike of the Appalachian Trail. He spent his college years serving on a rescue squad as an Emergency Medical Technician (EMT-B) and now volunteers with the New England K9 Search and Rescue.

TARYN DAUSMAN, MS
Project Consultant

Taryn Dausman delivers consulting services from Colden's Albany office. Ms. Dausman has experience in conducting onsite air and noise sampling, evaluating sample data, and assisting in report development for various clients in diverse industries.

She has assisted in creating a nanomaterial safety policy and training presentation for a specialty materials corporation, and provided other health and safety program support for clients.

MARY CHUC, MPH, CSP
Project Consultant

Mary Chuc, MPH, CSP, joins our New York City office as a project consultant. With over nine years of experience in the health and safety field, she has worked in industrial, laboratory, and environmental settings. Ms. Chuc supports clients in identifying and providing solutions to workplace health and safety concerns. She specializes in chemical exposure assessments, job risk assessments, ergonomic assessments, chemical management, noise and hearing conservation, indoor air quality, and injury/illness investigations.

Ms. Chuc attended Stony Brook University for her bachelor of science in health science and went on to earn her master of public health from Tulane University with a major in Occupational Environmental Health. She completed her master thesis on Bladder Cancer Risk in Female Hairdressers.
