

Insurance claims professionals often require expertise in the health and safety arena to prevent, mitigate, or assess loss. Colden professionals focus on the delivery of health and safety services to clients in varied industry sectors including heavy and light manufacturing, academic institutions, research and development laboratories, healthcare facilities, national television networks, architectural and engineering companies, telecommunications companies, petroleum plants, foundries, utilities and government entities. Colden also has a wide range of experience with manufacturers such as those in the chemical, pharmaceutical, heavy equipment, automotive, electronics, and semiconductor industries.

Colden's professionals can assist insurance companies with a wide range of technical support services in loss control management and claim resolution. Our focus is on providing prompt, defensible technical services, and presenting concise and accurate findings.
